# Preface

This guide has been prepared to help you use the resource of the NCNM Online Research Database. Specifically it offers guidance on how to prepare for and make a submission of a research abstract to the Online Research Database.

The database consists of a number of areas

- Search
- Add abstract
- Amend Abstract
- How this database works
- Contact us

This document aims to explain each of these sections. This information is available on-line in the database in a PDF and in video display format.

# Background

## Background to the development of this database.

The National Council for the Professional Development of Nursing and Midwifery was established in 1999 under Statutory Instrument 376/99. The mission of the National Council is to promote and develop the professional role of nurses and midwives in order to ensure the delivery of quality nursing and midwifery care to patients/clients in a changing healthcare environment. In order to fulfill this mission, the National Council provides national leadership primarily in the development of a clinical career pathway.

In addition the National Council is charged with promoting the utilization of research in the professions of nursing and midwifery. The purpose of the database is to facilitate dissemination of completed Irish nursing and midwifery research, that is research that has been wholly or in part, conducted in the Republic of Ireland. Populating the database with such research will provide a valuable resource to both novice and experienced researchers, and for all nurses and midwives working in clinical practice, education and management. In addition it will increase the visibility of research activity in Irish nursing and midwifery. The database can be used by anyone to search for Irish nursing or midwifery research. This database fulfills recommendation 3 of the Research Strategy for Nursing and Midwifery in Ireland.

The first section of this guide is about finding and using the database to search for research. The second section is about how to make submissions to the database. The third section contains other useful information on using the database.

# Section 1

## Finding and Searching the Database

Please note you do not have to be a registered user to undertake these tasks.

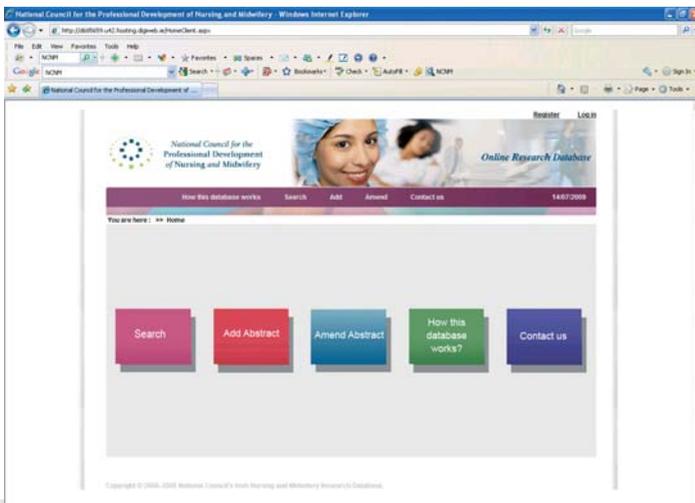

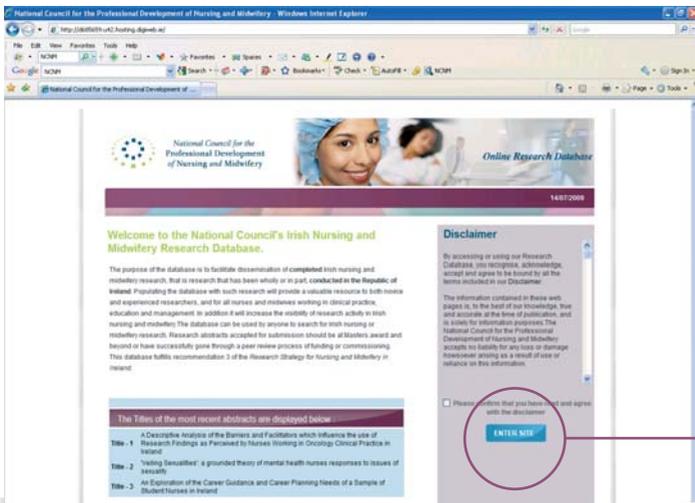

### How to access the Database

You can access the database via the NCNM website [www.ncnm.ie](http://www.ncnm.ie) and click on the link for the Research Database.

This brings you to the 'landing page' of the database. Here you will find the titles of recently submitted abstracts.

To enter the database you must first read and accept the Disclaimer by ticking the box and clicking the ENTER SITE button.

Once you have entered the site you have the following options

- Search
- Add Abstract
- Amend Abstract
- How this Database works?
- Contact us

## Search the Database

You may wish to search the database for available abstracts. Once you have selected this page you can enter a search criteria and a list of matches will be displayed.

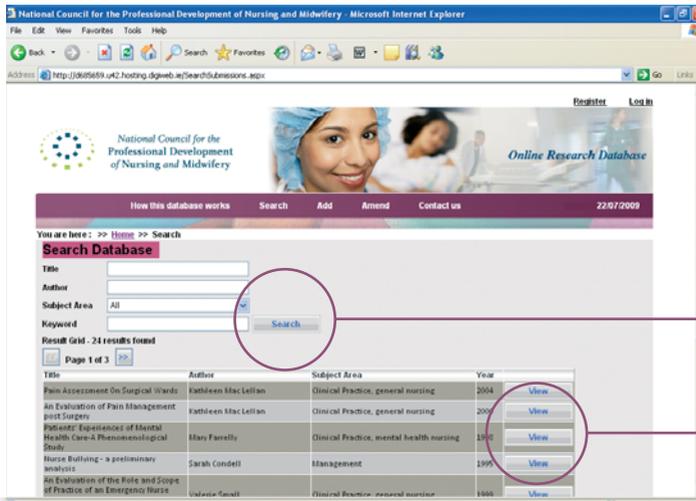

The Search criteria are as follows:

- Title (of abstract)
- Author
- Subject Area - All (default setting)
  - Clinical Practice, general nursing
  - Clinical Practice, intellectual/learning disability nursing
  - Clinical Practice, mental health nursing
  - Clinical Practice, midwifery
  - Clinical Practice, public health nursing
  - Clinical Practice, sick children's nursing
  - Education
  - Management
- Keywords (keywords entered by the author as relevant to abstract)

Enter or select the criteria that you wish to use and press the SEARCH button.

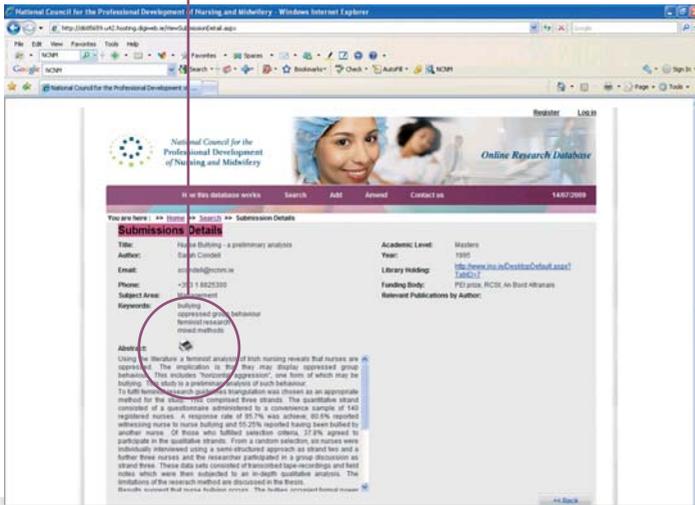

Abstracts meeting the criteria you have selected will be listed.

The result section will display the number of abstracts that meet your search criteria. If you wish to view all titles select All in the subject area.

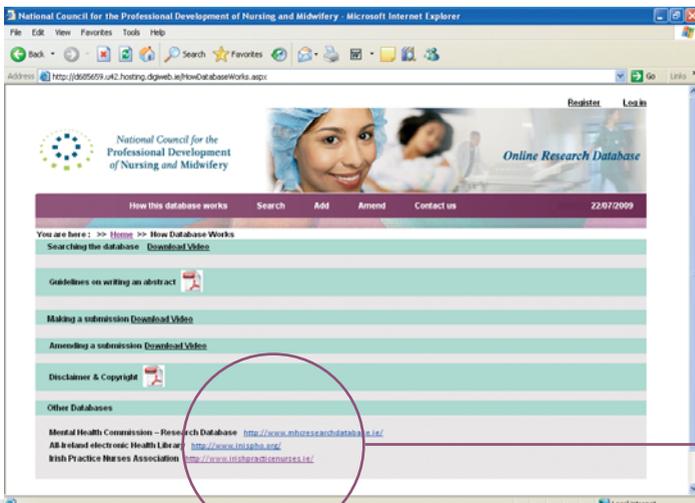

You can then view the full abstract and supporting details by clicking the VIEW button.

The abstract and supporting details can also be printed by clicking the Printer icon.

The system searches in titles, abstracts and keywords so be sure to use all possible terms to describe what it is you are looking for.

If you do not find a suitable abstract in the NCNM database you might want to search on other databases that are available at the bottom of the page on 'How this database works?'

## Section 2

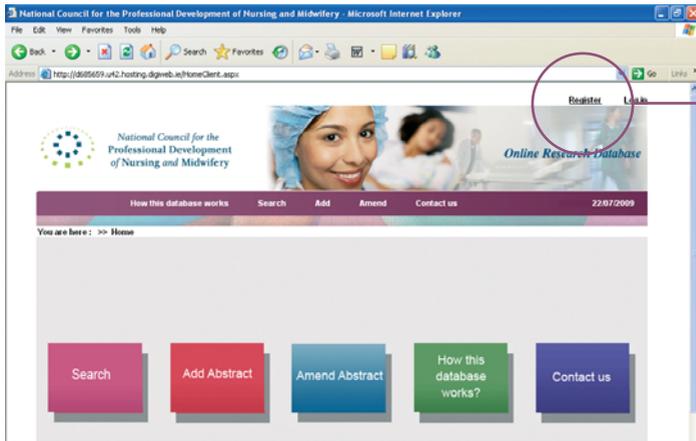

# Making a Submission to the database

This section of the guidance deals with the other database functions – that of making submissions. It is useful to use this checklist before making a submission.

## Submission Checklist

1. **Check the eligibility of the abstract you wish to submit** 
  - Has this piece of research achieved an academic award at Masters award or beyond?OR
  - Has this piece of research successfully gone through a peer review process of funding or commissioning?
  
2. **Write the abstract or check the existing abstract for completeness** 
  - Please read the guidelines on writing an abstract for this step (page 17).
  - Please ensure that you review your abstract for spelling and grammatical errors, as the author will be requested to amend the abstract to correct them. Also note the type and size of font and the line spacing required (page 12).
  
3. **Ensure access to the detail required for submission.** 
  - Details include the abstract itself and up to 5 key words. In addition you should have available any relevant journal publications from the research.
  
4. **Register as a user of the database** 
  - All submitters must be registered and have an username and password.

To register press on the 'Register' button found on the top right hand corner of all pages.

The fields that are required for the Registration are as follows:

 A screenshot of the 'Register' form on the same website. The form is titled 'Register' and is located under the 'Add User' link. It contains the following fields:
 

- Personal Details:** A dropdown menu for 'Title' (set to 'Mr'), and text input fields for 'First Name', 'Second Name', 'User Name', 'Password', and 'Confirm Password'.
- Email:** A text input field.
- Job Title:** A text input field.
- Phone Number:** A text input field.
- Institution:** A text input field.
- Institution Address:** Three stacked text input fields.

 A 'Register' button is located at the bottom right of the form.

Title

This is a drop list.

First Name

Enter your first name or initial. The combination of this field and the Second Name field will be used for your name in emails and will be displayed on the database when you log in. This is a mandatory field.

<b>Second Name</b>	Enter your surname in this field. This is a mandatory field.
<b>Email</b>	Enter the relevant email address. This email address will be displayed on the abstract and can be used by users of the database to contact you. This email address can be revised at any time, in the Edit Profile facility. This is a mandatory field.
<b>Phone number</b>	Enter the relevant phone number. This phone number will be displayed on the abstract and can be used by users of the database to contact you. The phone number can be revised at any time, in the Edit Profile facility.
<b>Institution address</b>	Enter the relevant address. This address will be displayed on the abstract and can be used by users of the database to contact you. This address can be revised at any time, in the Edit Profile facility.
<b>User name</b>	Enter an username in this field it can be alphanumeric and there are no limitations. It should be easily remembered. This is a mandatory field.
<b>Password</b>	Enter a password in this field, it can be alphanumeric and there are no limitations. It should be easily remembered. This is a mandatory field.
<b>Confirm password</b>	Re-enter your password in this field. This is a mandatory field.
<b>Job Title</b>	Enter your job title. The job title will be displayed on the abstract. The job title can be revised at any time, in the Edit Profile facility.
<b>Institution</b>	Enter the institution name. This institution name will be displayed on the abstract. The institution name can be revised or changed at any time, in the Edit Profile facility.

It is advisable to record these details as they are required for further access (adding or amending abstracts). Also the database will send an email containing the log in details to your email address.

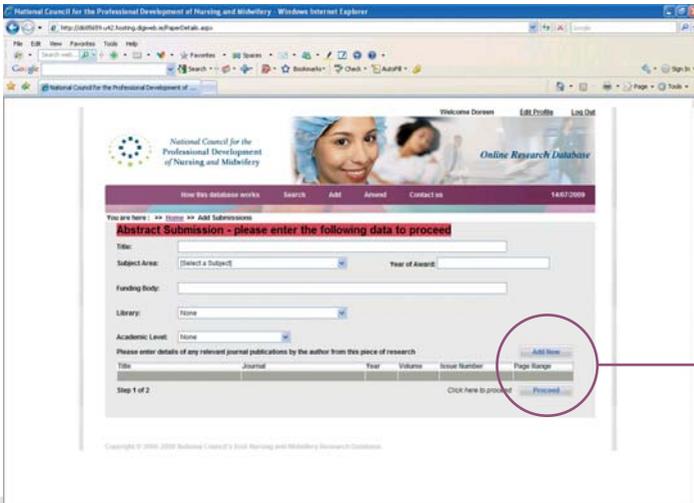

### **The National Council reserves the right to disable registered users.**

For example, disablement will occur:

- Where a registered users contact details are not in Ireland
- Where no abstract is submitted six months following registration.

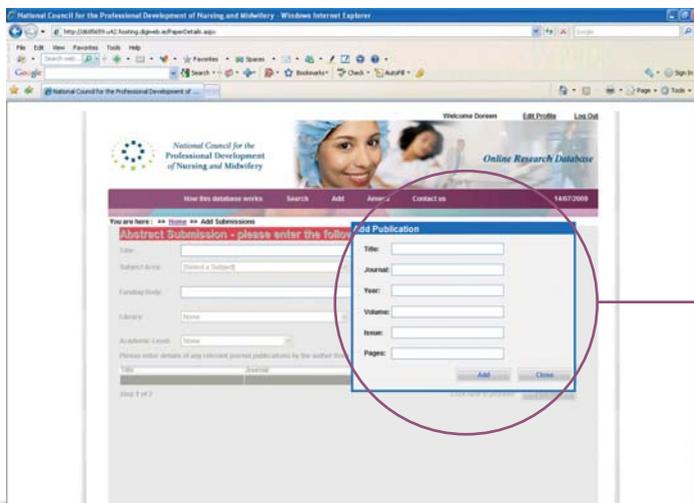

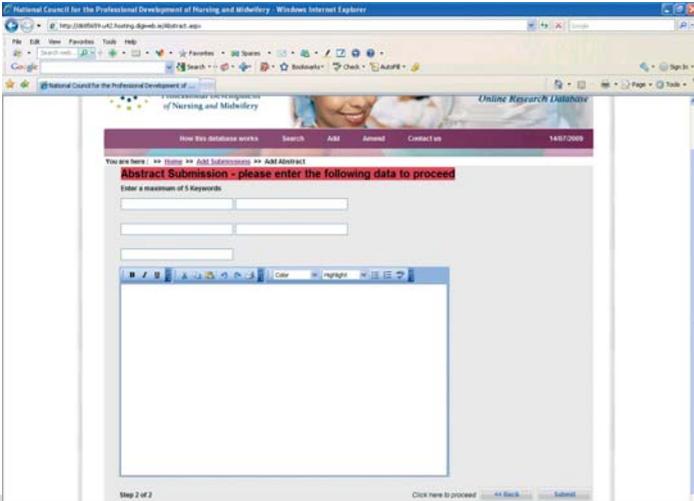

- Title** The title of your abstract/thesis should be entered in this field. It should be entered in Title Case format. The title field contains 200+ characters. This is a mandatory field.
- Subject area** **Subject Area is a mandatory field.**  
This is a drop down list of the areas of subjects that the thesis should be relevant to.
- Clinical Practice, general nursing
  - Clinical Practice, intellectual/learning disability nursing
  - Clinical Practice, mental health nursing
  - Clinical Practice, midwifery
  - Clinical Practice, public health nursing
  - Clinical Practice, sick children's nursing
  - Education
  - Management
- Year of Award** This field relates to the year the Masters, PhD or commission was awarded. This is a mandatory field.
- Funding body** If you received financial assistance in the production of the research, please specify in this field, it is a free text field.
- Library** This is a drop down list of all the third level institutions and the links to their libraries where, if appropriate, your thesis may be held. Once you select the relevant institute, the link to the library will be displayed in the final abstract. If an institution is not available on this list, please contact the NCNM via the Contact Us section.
- Academic Level** This is a drop down list of the appropriate academic levels for this database
- Masters
  - PhD
  - Post-Doctorate
  - Commissioned

Add Journal Publication

If your research has been published in a journal, you can add the publication(s) details by clicking on the Add Here button and a pop up screen will appear to be completed. If there is a second or third publication, the above procedure should be repeated. The following are the details required to add a publication. If possible all details should be entered and then press Add. Once you have clicked on Close to shut down the publications window, you click on Proceed to get to Step 2 of adding an abstract.

On page 2, the keywords and the abstract are added.

**Keywords** There are five fields available for keywords. These should be words which are relevant to the subject of the abstract. The Search process can retrieve abstracts based on the keywords.

**Abstract** This is the section where the abstract of your research should be entered. The abstract can be added by copying and pasting from another document. This facility can be carried out via, button, keyboard or mouse action. All the features of the Format tool bar can be used.

There is a Spell Check facility which must be downloaded prior to use. Please ensure that you review your abstract for spelling and grammatical errors, as you will be requested to amend the abstract to correct them.

NCNM request that the font is Ariel and size is 12. All sentences are in single line spacing.

When all the details have been added, the Submit button is clicked and the abstract has been submitted. A message is displayed acknowledging the submission of the abstract. Also a confirmation email is sent to the submitter. You will not see your abstract on the database until it has undergone a review process (see Quality Assurance section).

**REMEMBER to log out**

## Amend abstract

An abstract may be amended at any time but **ONLY** by the author.

An abstract may be amended because:

- the author wishes to update or revise it, or,
- NCNM may request an amendment during the quality assurance process.

If the author wishes to amend their abstract, they click on the Amend Abstract button on the home page and then log in. All the available abstracts on the database by this author are displayed.

By clicking on the Amend box and Proceed To button, the full abstract will be displayed. It should be noted that once the abstract has been amended, it will removed from the database while it undergoes the quality assurance process.

The screenshot shows the 'Amend Abstract' page on the National Council for the Professional Development of Nursing and Midwifery Online Research Database. The page includes a navigation menu with 'Home', 'Database works', 'Search', 'Add', 'Amend', and 'Contact us'. Below the navigation, there is a section titled 'Amend Abstract' with a sub-heading 'Please select an abstract from the grid below to amend'. A search result grid is displayed with the following data:

Title	Reference Number	Subject Area	Year	Full Details	Amend
Sarkis Building - a preliminary analysis	202021644	Management	1995	<a href="#">View</a>	<a href="#">Amend</a>

The 'Amend' button in the grid is circled in red. A red arrow points from the text 'Click Amend Button then Proceed' to the 'Amend' button. The page also shows 'Page 1 of 1' and 'Step 1 of 3'.

Click Amend  
Button then  
Proceed

The author can amend any detail that they had previously entered.

## Making a Submission to the database

The screenshot shows a web browser window displaying the 'Amend Abstract' form. The form includes the following fields and options:

- Title:** Nurse Bullying - a preliminary analysis
- Subject Area:** Management (dropdown menu)
- Year of Award:** 1995
- Funding Body:** FET ppsa, RCSI An Bord Albanais
- Library:** Irish Nurses Organisation (dropdown menu)
- Academic Level:** Masters (dropdown menu)
- Table:** A table with columns for Title, Journal, Year, Volume, Issue Number, and Page Range. The first row contains the text 'Step 2 of 3'.

At the bottom of the form, there is a 'Click here to proceed' button and a 'Proceed' button.

Once the author has completed all the amendments, the Submit button is clicked and the abstract is submitted to the database and must undergo the quality assurance process before it becomes available to all users of the database.

The screenshot shows the 'Amend Abstract' form with the 'Enter a maximum of 3 Keywords' section. The keywords entered are:

- bullying
- oppressed group behaviour
- feminist research

Below the keywords, there is a text area containing the following text:

Using the literature a feminist analysis of Irish nursing reveals that nurses are oppressed. The implication is that they may display oppressed group behaviour. This includes 'institutional aggression', one form of which may be bullying. This study is a preliminary analysis of such behaviour.

To fulfil feminist research guidelines triangulation was chosen as an appropriate method for the study. This comprised three strands. The quantitative strand consisted of a questionnaire administered to a convenience sample of 140 registered nurses. A response rate of 95.7% was achieved. 80.0% reported witnessing nurse to nurse bullying and 55.2% reported having been bullied by another nurse. Of those who fulfilled selection criteria, 37.3% agreed to participate in the qualitative strands. From a random selection, six nurses were individually interviewed using a semi-structured approach to strand two and a further three nurses and the researcher participated in a group discussion as strand three. These data sets consisted of transcribed tape recordings and field notes which were then subjected to an in-depth qualitative analysis. The limitations of the research method are discussed in the thesis. Results suggest that nurse bullying occurs. The bullies occupied formal power relationships.

**REMEMBER to log out**

## Edit Profile

You can change or correct any details of your log in profile. First you must log in and then the click on the Edit Profile button and edit your details.

The screenshot shows a web browser window displaying the 'Edit Profile' page of the National Council for the Professional Development of Nursing and Midwifery. The page has a header with the organization's logo and name, and a navigation bar with links for 'Home', 'About Us', 'Contact Us', 'Search', 'Add', 'Amend', and 'Contact us'. The main content area is titled 'Edit Profile' and contains a form for updating personal details. The form fields are as follows:

Title	<input type="text" value="DB"/>	User Name	<input type="text" value="Doreen"/>
First Name	<input type="text" value="Doreen"/>	Password	<input type="text"/>
Second Name	<input type="text" value="Stevens"/>	Confirm Password	<input type="text"/>
Email	<input type="text" value="dstevens@com.au"/>	Job Title	<input type="text" value="DB Administrator"/>
Phone Number	<input type="text" value="081 8301089"/>	Institution	<input type="text" value="NCHB"/>
Institution Address	<input type="text"/>		

A red circle highlights the 'Save' button at the bottom right of the form, with a line pointing to it from the text 'Click Save Button then Proceed'.

Click Save  
Button then  
Proceed

Once you have changed the required details, you click on the Save button and then it is submitted to the database. A confirmation email is sent to you to confirm the changes. If you have forgotten your log on details, please contact the database administrator (details on Contact Us section).

**REMEMBER to log out**

## Section 3

### Other useful information for database users.

#### The 'How this database works' page.

This section provides on-line guidance to you on how to use the database.

The following are available in this section:

- PDF Guideline document on writing an abstract
- PDF Guidance document on On-Line Research Database
- Video on making an submission
- Video on amending an abstract
- PDF Disclaimer and Copyright

There are also links to other research databases of interest to nurses and midwives in Ireland.

#### Contact us

If you wish to contact the NCNM regarding any queries or questions, the contact details are available in this section.

#### Quality assurance processes

When an abstract has been submitted to database for inclusion, it must undergo a quality assurance process. This process includes:

- Data protection review
- Data integrity review

If there are any issues the author will be requested to amend the abstract by the database administrator. An email will be sent to the author with this request and the author can amend the abstract as outlined in the section Amend Abstract. The abstract may be reviewed by a NCNM Professional Officer.

# Guidelines on writing an abstract

The abstract acts as your window of opportunity to share the importance of your research project to prospective readers in a concise manner. This means that the abstract should contain accurate, relevant, summary of the key information which allows readers to judge the quality of the work as well as its relevance to their own interest. To aid the searcher, you should include the key phrases for your subject area. We have allowed a maximum of 500 words for the abstract.

## Suggested abstract format: (500 words)

**Introduction:** Briefly state why the research was conducted; for example an identified gap in the literature, a problem arising in practice, or a change in policy direction may be the rationale for the study.

**Aims:** The research aim or question should be clear and concise and if appropriate, state what theoretical framework was utilised.

**Ethics:** Give one sentence on ethical clearance for the study.

**Methods:** Describe what you did succinctly. Detail the research design; and as appropriate, the research setting, samples and response rates; methods of data collection and data analysis. Mention any limitations that the research design imposed on the results.

**Findings or Results:** Outline the main and most important findings of the study. Remember the reader can gain more details by following up from the thesis or research report itself.

**Conclusions:** State concisely what can be concluded from the results given in the abstract and give the implications and relevance. If word count allows include recommendations or possible areas for further research. This section should not be a repetition of the methods or results.

### Helpful Hints:

- Write the abstract in the past tense as it should be describing a study already accomplished. Remember, your abstract is like a short story, so do ensure a readable flow to the abstract.

- Do proof read your abstract and get someone who is not familiar with the study to read a draft of the abstract and give feedback on its clarity. Ensure attention to detail so check the spelling and do not use unexplained acronyms.
- Try to avoid making explicit reference to existing publications. Readers want to see what you've done. Your word limit is short and does not include space for references to other literature. Remember the reader can gain more details by following up from the thesis or research report itself.
- Be concise and avoid repetition or jargon.
- Write the abstract offline in a word document. This will give you the opportunity to review and 'polish' the work before you submit. It can then be cut and pasted into the online submission when you are happy with its content.

## Help and Support

Should you experience any difficulty in accessing or submitting your project to the database, please do not hesitate to contact:
